

Dear D211 Board Members,

My name is Joseph. I'm a resident of Palatine for 22 years and I'm a parent of D211.

I believe all of you have already heard the story of Payton McNabb, the 17 years old high school girl volleyball player in North Carolina, who got a massive hit by a biological male "transgender" player on her head, and her brain got permanently injured.

Do you really want the same tragedy to happen in Conant High School and other schools of D211?

We started the fight ten years ago, when the Obama-Biden administration twisted the Title IX, which says: "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."

Make no mistakes, here it says "sex", the meaning is clear, it refers to biological male and female. Not "gender" or "gender identity". Obama-Biden administration replaced "sex" by "gender" and "gender identity". It is illegal.

It's shameful that D211 is first district in the nation adopted radical "transgender" policies.

During the 10 years, countless girl students were raped or harassed by so called transgenders. Girls' sports were badly destroyed. Girls' indignity was invaded.

President Donald Trump signed an EO on Jan 27 of 2025, which states the federal funds will be withheld from any school that facilitates "social transition" of a minor student. Social transition means the process of adopting a "gender identity" or "gender marker" that differs from a person's sex. So, the decision you guys made to allow a 6'4" biological male student to join girls' volleyball team, and access girls' bathroom and locker room directly violated the EO.

For your information, Ms. Linda McMahon, secretary of Department of Education, just announced on yesterday (August 19, 2025) that the federal government is on the process of suspending the federal fund to five school districts of north Virginia, because they refuse to stop their transgender policies.

So, allowing a biological boy student to join girls' volleyball team is not only dangerous to other girls, but also destroys girls' sports. It's not only illegal, but also immoral. It will bring D211 a financial consequence, as well.

Please withdraw the decision and stop all the transgender policies of D211.

Thank you
